EXPERIENCE (Clients)

Bouldersapp™: <https://betabouldersapp.com/>

Touchstone Climbing Inc., Hangar18, and Sender One Climbing LLC (pending)

- Progressive web application that allows rock climbing gym members to quickly see route information, document their climbs, and track their progress. Create an account, take and upload images & videos, review, scan routes by their QR code, look up solutions, and contribute to the database of climbing routes. Demonstrates user authentication and authorization, statistical analyzation and presentation using [datatables.js](#), [chart.js](#), [math.js](#) and [underscore.js](#). Uses Bootstrap 4, EJS, Express, MongoDB, and jQuery with a host of add-ons.
- Sign in with username: "demo" and password: "password" to check out all the features (profile & dashboard)

DJ WuWu: <https://djwuwu.com/>

- Originally designed and developed DJ business webpage for client using React, React Router, Express.js, Node.js, and Mongoose. Elegantly showcases upcoming shows with mobile responsiveness and method to contact (using nodemailer.js). Deployed over heroku, hosting with goDaddy and SSL cert by cloudFlare.

PROJECTS (More available on request)

EventStay: <https://kiddmit3.github.io/EventStay/>

- A single page application routing users to hotels near their desired events. Users can choose an event anywhere in the US and find the cheapest, highest rated hotels near it. Using jQuery, Materialize, and local storage.

PREVIOUS EXPERIENCE

Premier Education, Pasadena, CA; June 2017 – Present

Web Developer: <https://paarcadia.com/>

Developed a full stack web application that allows students to schedule tutoring sessions with tutors along with a static business page. Using mySQL, Express.js on the backend with REACT.js and Materialize on the front.

Maple Grove, Chino, CA; February 2014 – August 2017

R&D Manager, Previously Product Development Specialist/QA Supervisor

An integral part of the team. Oversaw and led the development and production of over 30 new products. Managed quality assurance audits, developed new formulations, and created effective methods in generating ingredient statements, nutritional labels, and specifications using excel and forms.

EDUCATION

UNIVERSITY OF CALIFORNIA, Los Angeles, CA (October 2017)
