(626) 423-8985  
LOS ANGELES, CA

## TECHNICAL SKILLS

**Frontend:** Javascript, HTML5/CSS3, JSX

**Backend:** Node.js, Express.js, MySQL, MongoDB

**Workflow/Deployment Tools:** Git, Heroku

**Frameworks:** REACT.js, Bootstrap 4, Materialize, Handlebars.js, EJS, jQuery

**Other Skills:** Patient, positive, and a team player.

Enjoys solving problems and being recognized.

**Tools:** Adobe Photoshop, Lightroom, Premiere Pro

**Experience w/:** ffmpeg, datatables.js, chart.js, webRTC, passport.js, qr codes, phonegap/cordova, webpack

## PERSONAL PROJECTS (with Clients)

 **Bouldersapp™:** <https://betabouldersapp.com/>

**Touchstone Climbing Inc., Hangar18, Factory Bouldering, and Sender One Climbing LLC (pending)**

- Progressive web app that allows rock climbers to scan tags to quickly view video solutions and track progress. Login, upload videos, leave a 5 star review, and use the in-app QR Scanner. Uses reusable tags with dynamic QR codes and account hierarchy structure. Ported to Android with iOS pending. Uses Express.js and MongoDB.
- Sign in with username: "demo" and password: "password" to check out all the features (profile & dashboard)
- View guides and tutorials: [PDFs](#)

 **DJ WuWu:** <https://djwuwu.com/>

- DJ business webpage for client using React, React Router, Express.js, Node.js, and MongoDB. Elegantly showcases upcoming shows with mobile responsiveness and methods to contact and book (using nodemailer.js).

## OPEN SOURCED PROJECTS (More available on request)

 **EventStay:** <https://kiddmit3.github.io/EventStay/>

- A single page application routing users to hotels near their desired events. Users can choose an event anywhere in the US and find the cheapest, highest rated hotels near it. Using jQuery, Materialize, and local storage.

## EXPERIENCE

 **Infinite Promotions, Los Angeles, CA; June 2018 – Present**

**Full Stack Developer:** <https://infinitepromoters.com/>

Developed and scaled application targeting real estate agents that automatically manages their social media accounts (autoposts listings and articles) and generates e-flyers and videos (in browser and backend). Built interactive client portal, admin dashboard, and scraper tool (+1 million leads). Designed product page, logo, and user interface.

 **Premier Academy, Pasadena, CA; June 2017 – June 2018**

**Web Developer:** <https://paarcadia.com/>

Developed a full stack web application that allows students to schedule tutoring sessions with tutors along with a static business page. Using MySQL, Express.js on the backend with REACT.js and Materialize on the front.

**Maple Grove, Chino, CA; February 2014 – August 2016**

**R&D Manager, Previously Product Development Specialist/QA Supervisor**

Oversaw and led the development and production of over 30 new products. Managed audits, developed new formulations, and created effective methods in generating ingredient statements, nutritional labels, and specifications.
